

POLICE INCIDENT REPORT

Riverside County Sheriff's Office — Ref. Claim CLM064

Report Number:	RC-2025-118842
Date Filed:	November 29, 2025
Reporting Party:	Arjun Fischer
Responding Officer:	Officer T. Nguyen, Badge 2214
Incident Classification:	Reported Burglary — Residential

Officer's Summary

Reporting party states an unknown incident occurred sometime between the evening of November 26 and the evening of November 28, while the residence was unoccupied. Reporting party discovered the alleged point of entry, a rear window, and reported several items missing from the living room and home office.

Upon inspection, this officer did not observe pry marks, broken glass, or other physical damage consistent with forced entry at the rear window identified by the reporting party. The window was found unlocked. No fingerprint or forensic evidence was collected at the reporting party's request, citing the delay since the estimated time of the incident.

No neighbors canvassed reported suspicious activity during the estimated window. Reporting party was unable to provide a more specific timeframe due to the absence of a home security system.

Officer's Notes

Given the absence of physical evidence of forced entry and the multi-day gap between the estimated incident window and the report being filed, this incident is documented as reported by the resident. No suspects identified at this time.
