

SIU CASE REFERRAL

Fraud Investigation & Special Investigation Unit — Referral Form

Fraud Case ID:	FC024
Related Claim:	CLM079
Claim Amount:	\$49,724.00
Referral Source:	Automated Fraud Model
Date Opened:	July 5, 2025
Assigned Investigator:	SIU001

Reason for Referral

The automated fraud model flagged this claim at the highest confidence tier for two independent reasons: the claimant is associated with a separate active claim of similar value filed under a different policy within the same 60-day window, and the reported incident timeline does not align with the metadata on the submitted photo evidence.

Model Output Summary

Duplicate claimant signal: High confidence — same claimant identity linked to Claim CLM079 and a separate claim, both describing water damage losses, filed 11 days apart under different policy numbers.

Inconsistent timeline signal: Medium confidence — submitted photo evidence contains metadata timestamps that precede the claimant's stated date of loss by approximately three weeks.
