Statement Summary

The building superintendent stated that no water intrusion or plumbing incident was reported to building management for the claimant's unit during the timeframe described in the claim. The superintendent noted that a water incident affecting a different unit in the building, on a different floor, was reported and resolved approximately five weeks prior to the claimant's stated date of loss.

The superintendent further stated that maintenance logs show no work orders, water shutoffs, or restoration crews dispatched to the claimant's unit during the relevant period.
